

Education for all ages

- 7-9 years: Challenge yourself
 10-12 years: Research and Development
 13-15 years: Building expertise
 16- years: Research

Travel

Round-trips every Sunday from Montreal and Quebec City.

L'OBNL Objectif Sciences

With the opening of our new center in the Saguenay-Lac-St-Jean region, Objectif Sciences Quebec hopes to capitalize on the strong tradition of science education in Quebec and strengthen the Objectif Sciences international network, which is already a leader in Europe, Asia, and North America. Our new Pointe-Racine Science Center is ready to welcome you to an exciting new world of science and discovery!

Objectif Sciences / Base de Pointe-Racine /
 296, Racine sur le lac / Dolbeau-Mistassini

PEKUAKAMI

The Universe within hand's reach

Theme:

Aquatic ecosystems (Lac St. Jean)
Discover the islands of the lake
by canoe, observe whales,
construct canoes...

Astronomy-Robotics-Space-Aeronautics

CHASSEURS D'ETOILES

Reach for the stars

Theme:

Liquid Mirror Telescope
For all the backyard astronomers
who want to learn more! Discover
and explore the stars with
telescopes and webcams...

Participate in
real research projects!
Holidays, Day Care Centers,
Schools, Enterprises...

EXPEDITION - TRAVEL

Discover science while traveling.

Tracking snow panthers in central Asia;
on the edge of the Manicouagan crater in Quebec
or in the mountains of central France? Our
camps offer youths the chance to travel all over
the world!

Environment - Ethnology -
Anthropology - Ecology

BOREALIS

Find the answers to nature's
secrets

Theme: Terrestrial ecosystems
and ecology (Lac St. Jean)
Running through the forest, satisfying
your curiosity, sighting moose and
deer, studying beavers, meeting First
Nations groups...

Aeronautics - Robotics - Physics

PROPULSION

Lifters

Theme: Flying cars

Fascinated with engineering and technology?
Here's your challenge: building a flying car!
With state-of-the-art technology, everything
is possible.

OUTDOOR ACTIVITIES AND SPORTS

canoeing, rabaska,
rock climbing, team
sports, outdoor games,
hiking, mountain biking,
swimming, camping,
archery, parlour games,
theater, photography,
video, and more!

ZOOM

Center for Scientific
Living Pointe Racine

In the middle of nature of
the boreal forest zone:
Surrounded by the trees,
rivers, ponds and lakes of
the birch forest. Here, the
sky appears bigger than
elsewhere.

The center's 35 rooms can
accommodate up to 130
people: youths, families,
researchers...
